Metallic Mesh

We provide laboratory mesh sieves from Ø60 to Ø600 mm made in stainless steel (AISI 304). The metallic meshes are made in AISI 316 stainless steel according to the standards UNE 7050-3, ISO 3310-1, ASTM E11 and ISO 9044.

The identification mark is labelled on each test sieve by laser.

Certificate of compliance according to norm 10204 is enclosed for each test sieve, as well as a maintenance documentation.
